

EXPERIENCE

Hightouch | **Senior Product Designer** - Remote Jul 2025 - Present

- Lead product design for marketing and CDP surfaces, including agentic workflows and journey experiences. Partner with eng and GTM to ship features that help teams act on customer data.

DataRobot | **Staff Product Designer** - Remote May 2024 - Jul 2025

- Owned design across ML pipeline creation and monitoring (DAG visualization and a drag-and-drop editor in a managed Airflow environment), an on-prem agent orchestrator / LLM chat app (models, tools, assistants), React front-end frameworks for application templates (RAG, predictive, forecasting), and platform growth across trial and cross-sell.

New Relic | **Senior -> Lead Product Designer** - Remote Apr 2021 - May 2024

- Owned design for APM, product-led growth, and AI monitoring, from onboarding and power-user workflows to incident response. As lead, designed prompt tracing, model comparison, and token / latency / error monitoring so customers could see where and why LLM outputs broke down.

Pipeline | **Product Designer** - Hybrid (Seattle, WA) Nov 2019 - Mar 2021

- Modernized a CRM through a design system and core deal-management workflows. Took initiatives from research through hi-fi prototypes into a React codebase in close partnership with engineering.

VPGame | **UX Lead** - Bellevue, WA Dec 2017 - Jan 2019

- Led UX for the North American Esports division. Launched vpesports.com (Jan 2018); grew to 5M+ monthly pageviews and top-tier Esports media traffic. Designed Dota 2 analytics visualizations; owned research, visual design, and production front-end.

Microsoft (contracts) | **Design Researcher** - Bellevue, WA Nov 2014 - Dec 2017

- Usability research for Xbox One S, Xbox Elite Controller, Visual Studio Team Services, and Azure. Designed, moderated, and reported studies that informed hardware and tooling roadmaps.
